Capture Photography Agency

Submitted towards Partial Fulfillment for the Requirements of 6th Semester of

MASTER OF COMPUTER APPLICATION

Submitted By

Vikash Kumar : 1703614958

Supervised by

Mr. Aravendra Sharma

Department of Computer Application
Institute of Management Studies, Ghaziabad
DR. A.P.J. ABDUL KALAM TECHNICAL UNIVERSITY, LUCKNOW
SESSION: 2019-2020

PROJECT ACCEPTANCECE CERTIFICATE

This is to certify that project work entitled "**Capture Photography Agency"** by **Vikash Kumar**, students of 6ᵗʰ Semester in **MASTER OF COMPUTER APPLICATION BATCH MCA-LE 2017-19 OF INSTITUTE OF MANAGEMENT STUDIES, GHAZIABAD** affiliated to **Dr. A.P.J ABDUL KALAM TECHNICAL UNIVERSITY, LUCKNOW**, hereby accepted for the partial fulfillment of **MASTER OF COMPUTER APPLICATION.**

Dr. Sachin Malhotra   **Mr. Aravendra Sharma**
Dean Academics- MCA   **Project Supervisor**

<u>Declaration</u>

I **Vikash Kumar**, do hereby declare that the study done by me on the colloquium topic presented in this report entitled "**Capture Photography Agency**" is an authentic record carried out under the supervision of Mr. "**Mr. Aravendra Sharma**". The matter embodied in this report has not been submitted by me for the award of any other degree.

Student Name: Vikash Kumar

University Roll No: 1703614958

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to my supervision Mr. **Mr. Aravendra Sharma,** for proper supervision and timely support. His wide knowledge, guidance and continuous encouragements have ben a great help throughout our project work. I would like to thank **Dr. Sachin Malhotra(Dean-MCA), Mr. Avneesh Vashistha** and all facutlty member of **Department of Computer Application, Institute of Management Studies, Ghaziabad** who have given valuable guidance and suggestions for completion of my project, and also motivated me throughout entire project.

Student Name: Vikash Kumar

University Roll No: 1703614958

TABLE OF CONTENTS

<u>INTRODUCTION</u>

The project titled "**Capture Photography Agency**" is Portal where we gonna showcase own Photography telent with others, which is visiting here. This project is designed and coded in HTML, CSS, JAVASCRIPT, JQUERY. This project mainly focuses on to showcase own telent in the photography and advertising something to the network. Portal are also used at image Gallery.

There are mainly five module contain application:

Home: Contain top rated images and in the footer contain some link.

Gallery: Contains all images which you want to show.

About: Developer details with there social media link.

Blog: Contains image as well as some brief about images.

Contact: Visitor also connect with this place/method.

Objective

Galleries are a popular way of integrating images into a website, allowing users to see several images clearly at once. There are several diverse methods of generating slide shows such as these, including embedding a simple Light box gallery in your website with a source code and implementing the photo gallery via HTM. Every website contain image gallery by which you can easily showcase our organization some moment which is awesome and memorable.

BACK END OF PROJECT

DBMS is stands for data base management system. It is the set of program to use or modified the data. A DBMS is a software Package designed to define, change, retrieve, and manage data in data base.

MySQL is a fact, easy to use RDBMS being used for many small and big businesses. MySQL is developed, marketed, and supported by MSQL AB, which is Swidish company. MYSQL is becoming so popular because of many good reasons.

MySQL is very powerful program in its own right. It handles a large subset of the functionality of the most expensive and powerful database packages.

MySQL uses a standard form of the well known SQL data language.

MYSQL works on many operation systems and with many languages including PHP, PERL, C, C++, JAVA, etc.

MYSQL works very quickly and works well even with large data sets.

MYSQL is very friendly to PHP, the most appreciated language for web development.

MYSQL supports large database, up to 50 million rows or more in a table. The default file size limit for a table is 4GB, but you can increase this to a theoretical limit of 8 million terabytes(TB).

MYSQL is released under an open source license. So you have nothing to pay to use it.
